

## Seminar

---

### Opportunities for Anaerobic (co-) digestion of Waste and Wastewater

<b>Date</b>	9 <sup>th</sup> September 2015
<b>Location</b>	Aula de Proyectos. ETSE, Universidad de Santiago de Compostela
<b>Objective</b>	The purpose of the Seminar is to present new concepts allowing the optimisation of anaerobic (co) digestion processes for energy and chemicals recovery from waste and wastewater

#### Program

- 16:00 – 16:10 Introduction
- 16:10 –16:30 **María Fernández-Polanco** (University of Valladolid)  
“Microaerophilic environment for upgrading biogas quality”
- 16:35 - 16:55 **Jean-Philippe Steyer** (I.N.R.A, Narbonne. France)  
“Some innovative approaches for codigestion, Biodegradability, bioaccessibility and process design”
- 17:00 – 17:20 **Alexandre Gali** (CETaqua, Barcelona)  
“Anaerobic Digestion and Codigestion experiences in Wastewater Cycle”
- 17:25 – 17:45 **Belén Fernández** (GIRO. IRTA, Barcelona)  
“Co-digestion, examples of full scale”
- 17:50 – 18:15 **Marta Carballa** (University of Santiago de Compostela)  
“The role of anaerobic codigestion for efficient resources recovery from manure”
- 18:15 – 18:30 Discussion

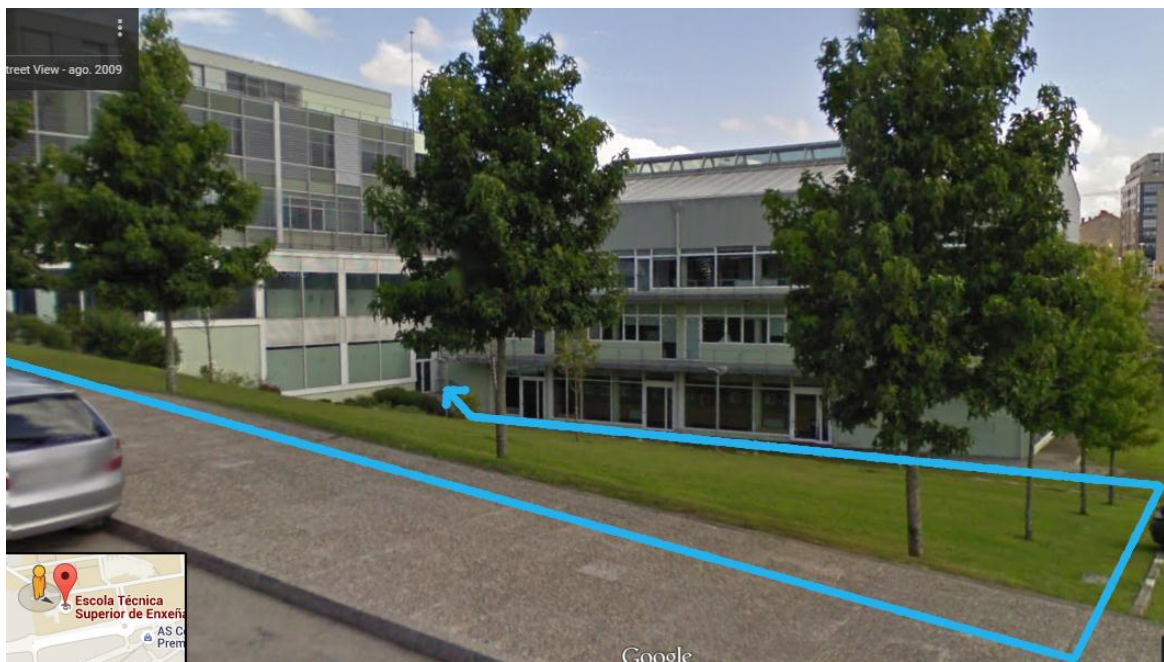

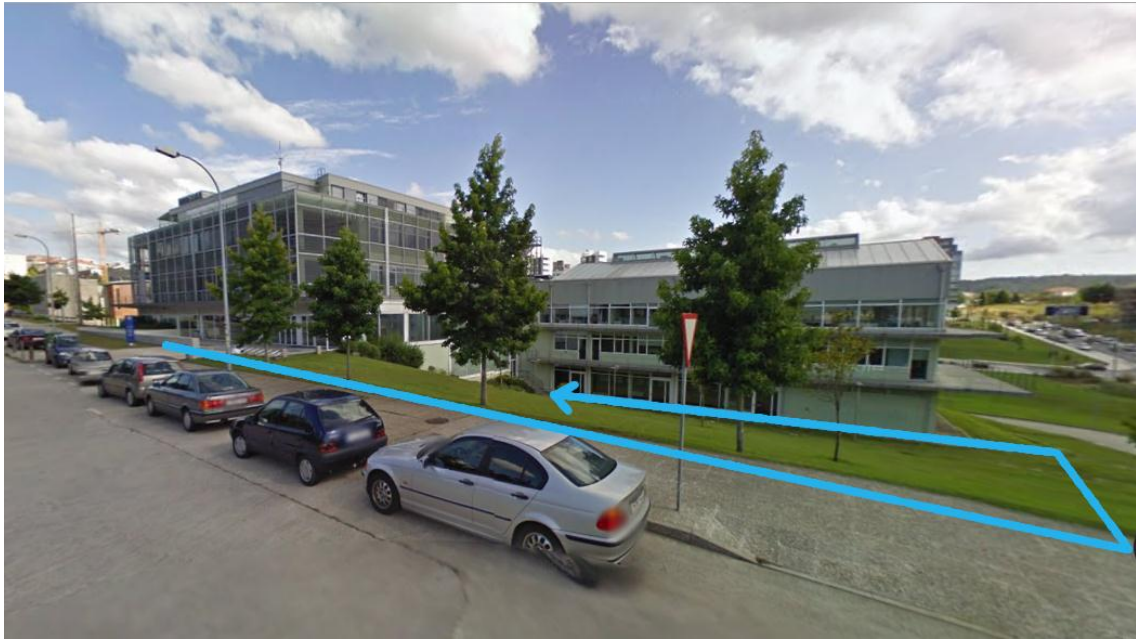

#### Registration

If you are planning to attend this activity, please, make sure to register at [here](#)

#### Organised by

# Nueva entrada a la ETSE

## Aula de Proyectos:

Una vez dentro, subir por la rampa y cruzar la puerta de la derecha

Seguir por el pasillo y girar a la derecha
